EXPERIENCE

Software Engineer Intern @ DBSL Ltd.

📅 Dec.2023-Present

Software Developer Intern @ Techno Services

📅 Apr,2023-Dec, 2023

Cool Trainee @ ANR Software Pvt Ltd.

📅 Oct,2022-Jan, 2023

Python Developer @ Learvern

📅 Dec,2021-May, 2022

PROJECTS

Flight Booking Web App

Full-Stack Web Development:

- Led the development of a comprehensive flight booking application, showcasing proficiency in both frontend and backend technologies.
- Implemented a user-friendly interface using HTML, CSS, and JavaScript, ensuring a seamless booking experience for users.
- Developed backend functionalities in PHP, including user registration, flight management, and secure administrator access.

Database Management and Security:

- Spearheaded the design and administration of a secure and efficient database system, ensuring optimal organization and retrieval of critical data for the application.
- Implemented stringent security measures, including encrypted storage, user authentication, and access controls, fortifying the database against potential threats and unauthorized access.

Profile Scraper for Professional Networking

Platforms - Python

- Developed a Profile Scraper tool leveraging web scraping techniques to autonomously extract and organize profile information from various online platforms

Instagram analyzer master

- Implemented reporting features that enable users to generate and export detailed reports, facilitating data-driven decision-making for social media strategy and content planning.

-More projects
